

Math 4431 Information

Professor: John Etnyre
Office: Skiles 106
Phone: 404.385.6760
Fax: 404.894.4409
e-mail: etnyre "at" math.gatech.edu

Office Hours: Tuesdays 9:30-10:30 (I will also usually be around at the same time on Thursday, and feel free to stop by anytime and see if I am free or set up an appointment via e-mail).

Lectures: Tuesday-Thursday 8:00-9:30 in Skiles 271

Textbook

The required text for this course is

- *Topology* by James Munkres (2nd edition).

I will try to make the lectures fairly self-contained so the main reason you will need the books is as another source for some of the material. (If you would prefer not to buy the book, you can probably get by with the class notes.)

Grading Policy

The course grade will be based on the following.

Homework: 30%
2 Midterm: 20% each
Final Exam: 30%

Homework Policy

Every two weeks or so I will assign a set of [homework problems](#). You should check the homework web page regularly, since I will not always announce when I post an assignment. You will have between one and two week to work on the problems (the exact due date will be on the problem set).

Exams

Final Exam is **tentatively** scheduled for Thursday, December 14 from 8:00 till 10:50.
