

HTS 3813, Sociology of Crime
T/Th 12.05 – 1.25 PM
Room 304, D.M. Smith Building

Dr. Amy D'Unger

Office: 124 Old Civil Engineering Building (221 Bobby Dodd Way)

Office Hours: I have office hours daily—schedule an appointment at www.advising.gatech.edu.

Office Phone: 404.894.7448

E-Mail: amy.dunger@hts.gatech.edu (this is the fastest way to reach me)

IM: Go to www.hts.gatech.edu/blog to chat with me live via instant messaging

Introduction:

This course is going to focus on the important theories and substantive issues in the study of crime, with an emphasis on *sociological perspectives*. We will be examining such subjects as: how crime and criminals are perceived; methodological and theoretical approaches for studying crime; characteristics of offenders and victims; societal reactions to crime; and special topics such as police discretion and imprisonment.

Learning Outcomes:

- Students will demonstrate an understanding of how sociocultural, economic, and political forces shape individual and group criminal behavior.
- Students will demonstrate an understanding of how sociocultural, economic, and political forces shape the American criminal justice system.
- Students will demonstrate familiarity with major theoretical perspectives and methodological issues in studying crime.

Required Reading:

- Kubrin, Charis E., Thomas D. Stucky, and Marvin D. Krohn. 2009. *Researching Theories of Crime and Deviance*. New York: Oxford.
- Scarpitti, Frank R., Amie L. Nielson, and J. Mitchell Miller. 2009. *Crime and Criminals: Contemporary and Classic Readings in Criminology, Second Edition*. New York: Oxford.

In addition, there are a few readings throughout the semester that are not in the textbooks. They are indicated with an asterisk and a bibliographic entry for the reading. You can access these readings via the T-Square site for this class. Go to “Resources” and the folder “Course Readings.”

Course Requirements:

- (1) ***Class participation & Attendance:*** On the following pages is a schedule of the readings required for the course. ***You are expected to have read the assigned material prior to the class.*** Lectures will correspond to the material in the book, but will not review it in detail, so both reading and class attendance are important! You are expected to participate in classroom debate and discussion throughout the semester and you will be evaluated on the quality and consistency of your participation.

Class participation and attendance will account for **10%** of your final grade.

- (2) **Examinations:** There will be two examinations—a midterm and a final—during the semester. The midterm will be held on March 1st and the final exam will be on May 3rd, which is the time slot assigned by the registrar's office. Both exams will cover the material presented in the readings and the lectures. The exams will be a combination of short answer and essay and neither will be cumulative. They will each account for **15%** of your final grade (**30% total**).
- (3) **Research Paper:** Each student will do a research paper on a topic of his/her choosing (8 – 10 pages typed, double spaced). You will be required to submit a proposal for the paper and to meet with me to have your topic approved. Paper proposals are due February 15th and the final paper is due March 31st. More details on the research paper will be given in a separate handout. The research paper will account for **30%** of your grade.
- (4) **Group Projects:** Class members will be divided into groups and given broad subjects to research. Groups will be assigned after drop/add so you will have the maximum amount of time to work on your projects. Teams will be responsible for refining their broad subjects into a specific topic, which must be approved by me. A one-page (typed, doubled spaced) project proposal will be due on March 10th. Once approved, the team can begin working on the project. The final product is a 20-minute, in-class presentation of the topic. Presentations will be held on April 14th, 19th, and 21st. This will be a group project with a group grade. Your team will be responsible for dividing the work of writing the project proposal, researching the topic, putting together your presentation, and presenting the material in class. More details on the group project, topics, and how it will be evaluated will be given in a separate handout. The group project will account for **30%** of your grade.

Accommodating Disabilities:

If you have or acquire any sort of condition that may require special accommodation(s), please inform me AS SOON AS POSSIBLE (e.g., not the day of an exam) so that we may make the appropriate arrangements. Proper documentation from the ADAPTS Office will be required. Please contact them to get more information on available services and accommodations, as well as documentation requirements. They can be reached via the web at <http://www.adapts.gatech.edu>. Please note that there are no retroactive accommodations.

Academic Conduct:

All students are expected to behave in accordance with the policies of the Georgia Tech Honor Code with respect to conduct and academic honesty. Anyone engaging in acts that violate these policies, such as plagiarism or cheating, will be penalized. For more information on the Honor Code, see www.honor.gatech.edu. If you are not familiar with what constitute plagiarism, ASK! ***Being uninformed of the policies does not absolve you from the responsibility of following them!***

Make-Up Policy:

My permission is needed to make-up assignments. (Having work/exams in another class will NOT get you my permission.) If you are going to miss an assignment, please make every effort to **notify me before the missed class** and to gather appropriate material to justify your absence (e.g., a note from your physician if you are ill). If you are unable to notify me before the class/due date, please try to have a friend, roommate, etc. contact me via e-mail and inform me of your absence. A mutually convenient time will be arranged for you to make up the assignment. Make up assignments will **only** be allowed in a situation of an excused absence (e.g., illness, family emergency, etc.). A note from the Dean will be required to make up the final exam.

*The use of cell phones and laptop computers is not permitted in this class. Please turn **OFF** your phones and laptops before entering the classroom. If you have a documented need to use a laptop during class, please come to speak to me. **Those who violate this policy will be asked to leave the class that day.***

So, How Can I Succeed in This Course?

(1) Attend class and be on time—there is nothing more disruptive to your learning than missing class and there is nothing more disruptive to other students than individuals who come in late and interrupt the lecture and class discussion.

(2) Do the reading!!! It will help you to participate in class as well as succeed on the exams.

(3) Notes, notes, notes. Take notes on each of the readings. What is the main point of the article/chapter? What is the theory trying to explain? How can this be integrated with other material discussed in class and the texts? etc. etc. *These notes will be valuable study tools for the exams.* Also, study in groups—other may pick up on material that you overlooked, and vice-versa.

(4) The reading load varies for each class. Anticipate days with heavy reading and START EARLY.

COURSE SCHEDULE AND READINGS (SUBJECT TO REVISIONS/ADDITIONS)

***In addition, there is a possibility for guest speakers, a field trip, and/or films during the semester.*

KSK = Kubrin, Stucky, & Krohn (*Researching Theories of Crime and Deviance*)
